WHO WE ARE

Pathways Forward is a **Mental Health Case Management** provider that helps Dauphin County residents ages 3 and up with serious mental health issues access **essential services and supports** for independent living and community involvement.

Services and supports could include: **mental health, medical, social, financial, vocational, education, and more.**

WHAT WE DO

Our Mental Health Case Managers help individuals and families by:

- **Identifying and securing** services
- **Creation** of service plans
- **Providing choice** of services and providers
- Services are **free and voluntary**

INTAKE PROCESS

Intakes offer a free evaluation to identify mental health needs, assess strengths, and determine program eligibility. The intake consists of: **data gathering, service planning, crisis assessment, and liability determination.**

SERVICES OFFERED

Administrative Case Management

Provides nominal support to help individuals and families access needed services. Case Managers **coordinate care** and maintain contact at least every six months, with **support levels based on individual needs.**

Blended Case Management

Supports children and adults with mental illness, ensuring **consistent care** based on individual needs. Face-to-face visits occur at least every 30 days, with **24/7 on-call support** available.

Homeless Outreach Services

Services address the **complex needs of homeless individuals** by connecting them to mental and physical health care, housing, substance abuse treatment, and other essential services.

Jeremy Project

Supports youth ages 16–22 in **building skills** for employment, independent living, and community involvement, helping them **transition to adulthood** through personalized services.
